Results

We consider each and every client organization as a distinctive entity with unique business realities. Tailoring unique solutions to meet and achieve exclusive objectives is our core competency. Throughout our consultancy assignments we have been assisting our client organizations to achieve excellence. Given below are a few examples of our contributions, which highlights the effectiveness of the Management Systems deployed.

OHSAS 18001- Improving Health & Safety Performance

We had the privilege of helping a local outfit of a multinational to achieve OHSAS 18001 certification.

The effort was rewarded not only with the 1st OHSAS 18001 certificate for both the multinational and us, but also with a dramatic improvement in Health & Safety performance. Occurrence of minor injuries was reduced by 80% and reporting of Near-Miss incidents has increased by 10 times.

ISO 14001- Pollution Prevention Pays

As a part of designing, developing and providing assistance to implement Environmental Management Systems, we have guided client companies to formulate and adopt **Pollution Prevention** strategies.

- ⊙ As a result of application of such strategies, one client organization factory was able to near-eliminate raw material wastage thus maximizing raw material utilization.
- ⊙ Another factory was able to improve effective utilization of energy by harnessing waste heat to dry intermediate products and hence to minimize fuel cost.

ISO 9001 - Caring for Customers

We have been integrating best practices to Quality Management System implementation, thereby achieving superior results.

- ⊙ In one organization, no. of customer complaints were reduced by 80% and no. of internal non-conformities were reduced by 70%.
- ⊙ For another company, the premium grade yield was increased by 20%.
- ⊙ In another client factory, we were able to guide them to eliminate a processing step.

Team with Synergy

To achieve such results and accolades, we have brought together a team with a wide range of expertise and experiences, covering the full range of services offered by us.

Motto

By Your Side Right Along

This is our motto, which has guided us to achieve superior service performances over the years.

Accolades

The high standard of our services have been applauded by client organizations, which in turn motivates us to achieve even better levels of client satisfaction.

“You are being almost considered a team member of ‘Company Name’ by all whom u have come in contact with. Thks again for this extraordinary commitment which was well over our expectation.”

An appreciation note from a Management Representative

The support extended to us was indeed unique as you worked with us as a part of “company name” and always had a patient and positive attitude and assisted us without thinking of any contractual boundaries.”

An appreciation note from another Management Representative

“Throughout all this, SCL (i.e. us) has been a partner, who has encouraged and exhorted us on the path to excellence while being superbly appreciative of organizational and business realities.”

An appreciation note from a long standing client.
