

Integrated Management Systems

When an organization pursues multiple certifications, development of one Management System which could comply with all the certification requirements makes lot of sense

Benefits of IMS (Integrated Management Systems)

- One effort on certification
- One set of documentation
- Eliminate duplication and overlaps
- One set of auditors
- One surveillance audit
- One Management Review
- Encouraging staff to think organically

Our Team

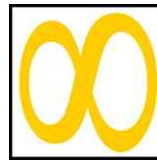

- Our team include senior consultants with more than 30 years of industrial experience.
- Our team includes consultant who is trained by a Fortune 500 company who are well known as the safest company on earth.

Our Track Record

Our clients include subsidiaries of Fortune 500 companies and Sri Lankan Blue Chip Companies. Following are numbers of certifications we have done for major Sri Lankan businesses BAT - 12, JKH - 8, Hayleys - 12, MAS - 6. In addition we have completed an EHS review for JKH covering 51 of their companies. This is an indication of our reputation for getting repeat assignments.

135

We have completed more than 135 certification assignments

185

We have completed assignments covering more than 185 companies

12

We have completed 12 assignments in development of ISO 14001 complaint Environmental Management Systems

51

We have completed an EHS review for 51 companies of John Keells Group

2

We have completed 2 OHSAS 18001 Consultancy assignments. Both customer belongs to MNCs.

ISO 14001

ISO 14001 is an International Standard for Environmental Management Systems

It can not be a surprise; all the waste you put out, that pollute your environment has cost you money. Hence Pollution Prevention definitely PAYS.

3P in Action an Example in a SL Company

In one of our client companies, in the production process workers use a highly viscous liquid and at the end of each shift workers are required to clean the container. The practice over the period was to use water to dissolve the remaining viscous liquid and to direct the wash water to the drains. During the Environmental Aspect identification process we noted this practice and suggested changes to cleaning process. Now, workers scrape the container with a special tool they themselves developed before washing and collect scraped viscous liquid into a collecting container. As a result water used for cleaning has reduced and the wastage of the viscous liquid has minimized, as the collected viscous liquid is reused. One simple change to the process resulted in conservation of two resources and as well as money.

We have completed 12 ISO 14001 certification assignments

OHSAS 18001

The OHSAS 18001 is applicable to any organization that wishes to establish an OH&S management system to eliminate or minimize risk to employees and other interested parties (e.g.: contractors & visitors) who may be exposed to OH&S risks associated with its activities

Top Ten Reasons for implementing an OHSMS

1. Cost of workers' compensation insurance (59 percent);
 2. "Right thing to do" (51 percent);
 3. "Increases Profitability" (33 percent);
 4. Federal/State safety rules (31 percent);
 5. "Too many accidents" (29 percent);
 6. Employee morale (26 percent);
 7. Productivity (23 percent);
 8. OSHA fines (20 percent);
 9. Employee concerns (5 percent); and
 10. Recommendations of outside experts (13 percent).
- Survey by the National Federation of Independent Business, Motivating Safety in the Workplace (June 1995).

Have you ever noted that, most of the time, the injured worker is your most diligent and loyal worker, who wanted quick action.

We have completed successfully an OHS review for 51 entities of a Sri Lankan Blue chip company and TWO OHSAS 18001 assignments for two multinationals with local operations.

Commendations

The high standard of our services have been applauded by client organizations, which in turn motivates us to achieve even better levels of client satisfaction.

"You are being almost considered a team member of Company Name by all whom u have come in contact with. Thks again for this extraordinary commitment which was well over our expectations."

An appreciation note from the Management Representative
