By Your Side Right Along

- ◆ Do you understand the dependencies and the vulnerabilities of the organization?
- ◆ Are you protecting stakeholder value from possible disasters and failures?
- ◆ Can you provide products & services to your customers even in a crisis situation?
- ◆ What is the assurance you could provide to your customers on your ability to recover your systems quickly in the event of a failure or a disaster?
- ◆ Have you planned recovery of non-IT related processes?
- ◆ Do you know the cost of your information system down-time?

**Moment to
..... Think.....**
